

Auto Tensioning Tool (Stainless Ties)

Hand tool for tensioning Stainless Steel Cable Ties between 0.3 - 7.9mm width.

Complete with tension indicator and automatic excess tie cut-off.

Material: Steel

Code	Description
CT511	Metal tool designed for coated or uncoated Stainless Steel cable ties from 0.3 to 7.9mm width. Complete with tension indicator and automatic tie excess cut off

STEP 1: Place the cable tie around the object to be secured.

STEP 2: Insert the tail through the slot and into the jaw and tension by repeatedly pressing the tool handles together.

STEP 3: After tensioning, move the tool with an up and down movement and twist the tool in a clockwise direction. This will shear off the tail neatly next to the cable tie buckle.
